65/75/86/98 inch Smart interactive whiteboard

Series Overview

Dahua DeepHub Smart Interactive Whiteboard for Education has powerful processing capabilities with its 8-core CPU, 8 GB RAM and 128 GB ROM capacity. Equipped with a $\phi 2$ mm high-precision IR frame and 4K high-definition DLED, this series of whiteboards will give you an extraordinary experience whether you are writing, controlling or displaying content. It features wireless screen sharing, file management, high-definition display, Scan & Go, and more. You can rely on this whiteboard to modernize your classrooms.

Functions

Hidden Antenna Design

The Wi-Fi and hotspot antenna is neatly concealed in the front of the device, ensuring the stability of the signal strength when using a flush mount, and giving the device its simple and sleek appearance.

Screen Sharing

The content on your screen can be freely shared with one other device through a wired connection.

Wireless Screen Sharing

In addition to basic file sharing, the device offers wireless screen sharing, interactive operations between two screens, and reverse transmissions. It also supports screen grouping (multiple transmission), host mode (for overall permission control), real-time transmission of images, videos and audios from the wireless camera of the mobile phone to the device, and split-screen mode that displays up to 9 splits on the same screen.

- The 65/75/86/98-inch 4K DLED display and is built of anti-glare tempered glass, which reduces air refraction and parallax, and enhances the effect of the display.
- Built-in 13 MP pixel HD camera.
- Built-in 6-array omnidirectional microphone that picks up audio 8 meters away.
- Features auto noise reduction and auto gain.
- Two built-in 15 W speakers that support stereo playback.
- Easily switches between Android and Windows. The PC module requires Windows.
- Performs screen mirroring with one-click for phones, computers, tablets and more.
- Supports reverse touch.
- Supports taking notes and generating QR codes for file sharing and storage. The files can be easily encrypted for privacy and security protection.

Similar to Real Writing Experience

The electronic whiteboard supports pen-point writing. It comes equipped with specialized writing pens, designed to enhance the writing experience. With its soft, comfortable nib, writing on the whiteboard feels natural, similar to the real writing experience.

Easy to Share

Enhances the experience of sharing files by scanning a code. It automatically determines the network of the device to readily share the QR code across the extranet and the intranet. QR code encryption and extraction are also featured, providing privacy and data security through the required entry of a 4-digit password for verification.

Text Recognition

Converts written letters into text in real time, using the default font of the system.

AI Recognition of Drawings

Identifies hand-drawn structures such as straight lines, triangles, parallelograms, trapezoids, rectangles, circles, pentagrams, and ellipse.

File Management

Supports managing and using Office files, image, video and audio files, and file formats such as PDF and TXT.

Scene

The whiteboard is ideal for indoor sites such as meeting rooms and classrooms.
